2015 Kanazawa University Disaster drill

Oct.23 (Fri)
11:30-12:00

◆ Lecture on 2nd Period will finish by 11:30 am (drill starting time)

Checklist of Actions to take when Earthquake strikes!

※Pay attention to the emergency earthquake warning relayed through the speakers.
①Take personal protective action for two minutes to reduce chance of injury (see the figures below).
②Evacuate from the building to a nearby outdoor safespace (temporary evacuation area) using the designated evacuation route.
③Upon arrival at the temporary evacuation area, report your presence to the person in charge.

3 steps to take personal protective action!

1 DROP to the ground.
2 COVER yourself by getting under a sturdy desk or table.
3 HOLD ON until the shaking stops.
