Checklist of Actions to take when Earthquake strikes!

※Pay attention to the emergency earthquake warning relayed through the speakers.

① Take personal protective action for one minute to reduce chance of injury (see the figures below).
② Evacuate from the building to a nearby safe space outside (temporary evacuation area) using the designated evacuation route.
③ Upon arrival at the temporary evacuation area, report your presence to the person in charge.

3 steps to take personal protective action!

1 DROP to the ground.
2 COVER yourself by getting under a sturdy desk or table.
3 HOLD ON until the shaking stops.
