Disaster Prevention Drill at Kanazawa University, Kakuma-Campus in 2021

Tuesday, October 12, 2021 12:00 p.m.-12:40 p.m.
[Evacuation Drill: 12:00 p.m.-12:15 p.m.]

◆ Objective
  ・To make an preparation for evacuation of a large-scale earthquake, and to improve faculty and staff awareness of disaster prevention consciousness.
  ・To confirm an organized activity to minimize further damage.

◆ Target persons
  To prevent the spread of novel coronavirus infection, the Disaster Prevention Drill will be scaled down and implemented by limiting the number of target persons as follows.

  Target persons: Students who are in the laboratories at the time of the drill (excluding those who are in other places), Department heads, faculty, administrative staff (about 20% of staff from each department), CO-OP staff, and cleaning staff, etc.

◆ Assumption
  An earthquake with an intensity of upper six on the Japanese seven-stage seismic scale strikes Kanazawa. The Earthquake Early Warning (EEW) is a warning issued. After 10 seconds of the warning, strong tremors arrive and continue about one minute. Although the entire infrastructures stop working, communication network systems are secured by emergency power supply.

◆ Contents of Evacuation Drill
  ・Every student and faculty evacuates at once from areas in danger and moves promptly to designated areas.
  ・University Staff organizes a disaster operations center, carries out practice drills and confirms a chain and unity of command.
  ・University Staff organizes a self-defense fire-fighting organization and carries out fire drills.

◆ Confirmation method of the number of evacuees
  University Staff counts the number of evacuees.
## Timetable

**Target**

Students who are in the laboratories at the time of the drill (excluding those who are in other places), Department heads, faculty, administrative staff (about 20% of staff from each department), CO-OP staff, and cleaning staff, etc.
