INHA Summer School

[The Dates for 2023 Program]

**26th(Wed) July ~
14th(Mon) August
2023**

*Online Application will begin
during March 2023.*

I am glad that I could join the summer school program at Inha University because studying abroad is not easy during the pandemic. I would like to recommend studying at Inha University in Korea because the staff and assistants are really helpful and friendly. They organize a lot of activities to help us understand Korean culture. Besides, the lessons are interesting since the professor not only provides teaching materials, but also guides some interaction sessions.

Danny Leung

Summer school student from
Hang Seng University of Hong Kong

I absolutely loved my time at Inha! As someone from Europe it can be quite costly to visit Korea, so it was a dream come true with the help and support of Westminster and Inha to be able to come to Korea for the summer. My classes gave me a new found confidence to enter the working world as I had just finished my degree and I learnt so much about Korean culture, history and Korean society. Inha really helped me with valuable global exposure and the international team provided us with many initiatives and opportunities to integrate with Korean society and network with students and staff both international and Korean at Inha. I now feel confident to navigate Korea and East Asian countries independently, or possibly even work in Korea or East Asia. Aside from that, I've made lifelong global friends.

Ketan Mandalia

Summer school student from
University of Westminster, London, UK.
