0. Introduction

For current students in Graduate Schools, based on their application, those who meet all of the application qualifications, academic and household criteria stipulated in the University's Regulations will be selected for full or half waiver within the budgeted amount of the tuition fee waivers, in order from those with the highest household financial need. The selection process is carried out every semester and is not necessarily the same as the previous result. In some cases, the previous waiver result was a full waiver, but this time the waiver is half waiver, and in other cases the waiver is rejected because it does not meet the criteria.

For undergraduate students who are not covered by the new system, the same procedure applies. However, the number of students to be selected is limited to a maximum of 15 students, and half tuition waivers will be granted in order from those with the highest household financial need. Even if the criteria are met, applications may be rejected.

1. Eligible applicants

1 - 1. Eligibility for tuition fee waivers

Eligible applicants must meet one of the following two conditions (1) or (2):

- (1) Students who have difficulty paying tuition due to financial reasons and who are recognized as having excellent academic records.
- (2) Those who, within one year prior to admission, have been subject to any of the following events ① or ② that have made it difficult for the student to pay the tuition fee.
 - ① The death of the main income earner in the household, or situations in which the applicant or the main income earner has suffered damages from a disaster such as storms or floods.
 - ② In cases equivalent to ① where the President finds reasonable grounds.

1 - 2. Additional information on eligibility (eligibility for application)

Students who fall under any of the following categories ① to ③ shall not be eligible to apply for tuition fee waivers.

- ① **Students who have repeated the year or been enrolled for longer than the standard period of study**

However, applications may be approved as a special case when a student has repeated the year or exceeded the standard period of study by one year or less, and the reason for the extended duration of study is not due to the circumstances of the student.

<Cases in which an application may be approved as a special exception>

- a Leave of absence due to illness, or cases in which, although the student has not taken a leave of absence, they have been unable to earn credits due to illness and have repeated the year or exceeded the standard period of study.
- b When the student has remained in the same grade or exceeded the standard period of

study due to studying abroad.

- c When a graduate student's dissertation has been delayed due to reasonable fault on the part of the University and the student has repeated the year or has exceeded the standard period of study.
- d Leave of absence for childbirth or childcare.
- e When a student has repeated the year or exceeded the standard period of study due to other reasons not attributable to the student.

Note: When applying as special exception due to illness as per "a" above, the applicant is required to submit the doctor's certificate at a later date. If the medical certificate cannot be submitted, the application as special case will not be approved. However, if the medical certificate has already been submitted to the University at the time of the leave of absence procedure, it is not required.

② Students who take leave of absence, etc.

Applicants who take a leave of absence during the period from the base date of the application for waiver (first semester: April 1, second semester: October 1), those who return to the university during the term, those who complete the course during the term (June completion, December completion, etc.), or those who withdraw from the university are not entitled to apply for tuition fee waivers. If you decide to take a leave of absence etc. after the application, please be sure to report it to the Student Support Section as we will invalidate your application.

③ Students who have received disciplinary action in the semester preceding or during the semester for which they are applying

If the time of the disciplinary action is before the notification of the result of the application, the waiver application is invalidated; if it is after the notification of the result of the application, the permission for the waiver is cancelled (the regular tuition fees must be paid in addition).

2. Application method

Please submit the set of application documents for tuition fee waivers within the application period.

Note that the application method and application period differ between those who chose "First and second semester batch" and those who only applied for the second semester (those who chose "First semester only" and those who did not apply for the first semester) at the time of application in the first semester of 2025.

Submissions received after the application period will not be accepted under any circumstances. Please **consult with the Student Support Section during the application period** if you are unable to prepare any documents (such as a certificate of admission) by the deadline due to reasons other than your own reasons, or if you have any questions.

Application Category	Requirements
General student	Where the applicant falls under neither the "Self-supported individual" or "International student" categories below
Self-supported individual* (Employed persons)	<p>All of conditions 1-3 below must be met.</p> <ol style="list-style-type: none"> 1 . The applicant is not a dependent of their parents, etc. under the Income Tax Law or for health insurance purposes 2 . The applicant (and their spouse) lives separately from their parents. (Separation of households shall not be regarded as separation) 3 . International students*	Privately financed international students

* As a general rule, the income of self-supported individual and Privately financed international students is calculated based on the values shown on their income certificate for the previous year.

However, as an exception, estimated income values may be used to calculate the amount of income for persons who became self-supported individuals through work after January 1 of the year of application and privately financed international students who had not yet arrived in Japan as of January 1, 2024. Even if previously recognized as a self-supported individual, applicants will not be recognized as self-supported individuals where their income for the previous year does not meet the requirements; in such cases the applicant is to be considered a "general student" and should submit income documents for their parents.

② Scope of family

Application Category	Scope of family (Members of the same household)
General students	<p>The applicant, the main income earner (in principle, a parent) and dependents of the main income earner under the Income Tax Law (Regardless of whether they live under the same roof) and include the following:</p> <ul style="list-style-type: none"> ① Parents who live separately due to their work (a posting away from home, migrant workers, etc.) ② Dependents of the main income earner who live separately for schooling or medical treatment ③ Grandparents living separately who are dependents of the main income earner <p>E.g., Where a father, mother, brother (student), sister (working adult), and grandparents (not dependents of the main income earner) are living together, the household is defined as the father, mother and brother. The sister and grandparents, who are not dependents, are not included.</p>
Self-supported Individual* (Employed persons)	<p>The applicant, the spouse, and dependents (children, etc.) of the applicant or the spouse under the Income Tax Law</p> <p>If the applicant has a spouse, regardless of whether he/she is dependent on the applicant for health insurance or tax purposes, he/she is regarded as a person living in the same household as the applicant and is required to submit documents relating to income etc.</p>
International Students*	<p>The applicant, the spouse living in Japan and dependents of the applicant under the Income Tax Law (children, parents living in Japan, etc.)</p>

*If a person who is a dependent under the Income Tax law at the time of application ceases to be a dependent as of the application base date (1 April for the first semester and 1 October for the second semester), he or she is not included in the family. However, since there will be a discrepancy between the number of dependents reported and the information in the 'Dependents Subject to Deduction' column on the withholding tax certificate, etc. please submit Form 9 Declaration on the separate livelihoods of siblings."

③ Income

Please fill in the form according to the tax withholding certificate for 2024 (salaried employees) (the value shown in the "amount paid" column), or the final tax return for 2024, or the Municipal Residents Tax Return for FY2025 (reflecting 2024) (where not a salaried employee). Those filing a final return must fill in the form accordance with the financial return.

In the case of salaried employees with multiple employers, the total amount is calculated.

Self-supported Individual (Employed persons)	<p>• Income of the applicant (and the spouse): All salaried and non-salaried income for 2024 (Including lump-sum income shown on the Certificate of Income Taxation)</p> <p>*The calculation is based on the amount on the certificate of income taxation for the previous year, even if there is a change in household income such as resignation, job change or employment during the year, or if a person is absent from work due to maternity or parental leave and is expected to have no income on the reference date. However, where there is no expectation of an ongoing income that meets the requirements for Self-supported individual due to a change of employment or unemployment during the year, the applicant cannot apply as a "self-supported individual." In such cases, submit the Certificate of Income Taxation of the main income earner as a "general student".</p> <p>*Applicants who are newly employed after January 1 of the year of application and anticipate an income that meets the requirements, but who did not record an income that meets the requirements on their Certificate of Income Taxation for the previous year, may apply as self-supported individual as an exception. Notification shall be made **on the Acanthus Portal** in mid-December 2025 (tentative).

- * Payment of tuition fees shall be deferred until notification of the results of tuition fee waiver applications.
- *If the application result is a half waiver or rejection, the amount to be paid and method of payment shall be included with the result notification.
- ***The final deadline for the payment of tuition fees shall be September 30 for the first semester and March 31 for the second semester (In both cases, if this day is a holiday or public holiday, until the weekday just before). Students who fail to make payments will be expelled.**
- *The period between the notification of results and the deadline for payments is short. Please make advance preparations to make the payment, should your application be unsuccessful.

6. Handling of personal information

- ① Personal information submitted in the application and personal information obtained by the University will be used for the purpose of screening admission and tuition fee waivers. In addition, the results of the selection process for admission and tuition fee waivers will be used for operations related to the collection of admission and tuition fees.
- ② Personal information obtained in the course of ① as well as the results of the admission and tuition fee waiver selection process may be used for operations relating to financial support for students. In addition, information may also be used in an anonymized form for the purposes of improving university education, student support and university administration (various statistical surveys and analyses, project planning etc.).
- ③ In conducting the operations in ① and ② above, some tasks may be outsourced to external companies. In such cases, a contract will be agreed between the University and the contracting entity to ensure the appropriate handling of personal information, whereupon some or all personal information shall be provided to that entity.

7. To Students and Parents

In principle, tuition waivers should be applied for **by students themselves** to encourage their independence. If anything is unclear in the screening process, we will ask the student himself / herself. **Please apply by the student himself / herself after fully understanding his / her family situation.**

In addition, in order to ensure equity and fairness, each deadline for applications will be handled strictly. Therefore, **we will not accept applications after the application period has passed for reasons not attributable to the University**, such as "I did not know," "I did not notice the notification," or "I was busy.". We appreciate your understanding and cooperation.
