

## **Announcement of Faculty Position**

*Emerging Media Initiative, Kanazawa University*

### **1. Position:**

Non-tenured Assistant Professor

### **2. Affiliation:**

Emerging Media Initiative, Kanazawa University

<https://www.emi.kanazawa-u.ac.jp/>

### **3. Field of specialization (Duties and Responsibility) :**

We are seeking candidates who are motivated to pioneer educational innovation and develop teaching materials using advanced digital technologies. The role involves research and development of sophisticated educational methods and the evaluation of their effectiveness, as well as conducting basic or applied research in related research fields such as data science, educational technology, AI-driven knowledge discovery, data interpretation and visualization, and DX (Digital Transformation) technologies for the realization of Society 5.0. The successful candidate is expected to propose original technologies, promote their implementation in society, and lead the core operations of the Emerging Media Initiative, spearheading the Digital Transformation (DX) across education, research, and administrative operations of the university.

### **4. School and Division (Teaching responsibility):**

Liberal Arts and Science, Global Standard (GS) Courses for undergraduate and graduate programs

### **5. Subject responsible for:**

Lectures and practical training courses on data science, information ethics, security literacy, computer, programming, and ICT-related subjects such as "Introduction to Data Science" and "Information Science"

### **6. Employment status:**

A full-time assistant professor (non-tenured, 5-year term)

An internal mid-term review will be conducted in the third year of employment, and a final internal review of research and educational achievements will be held at a predetermined time before the end of the appointment term. Based on the results of the internal review, if the candidate is reappointed, the new appointment will be without a fixed term (tenured).

[Items for Reappointment Review]

(1) Activities related to the duties described in "3. Field of Specialization (Duties and Responsibility)."

(2) Research activities (e.g., publications, conference presentations).

(3) Educational activities (e.g., lectures).

(4) Acquisition of external funding.

(5) Contributions to the university and society.

### **7. Compensation:**

Annual salary system is applied.

### **8. Qualification requirements:**

1) The candidate should be a researcher with a doctoral degree by the time of appointment.

2) The candidate should have enthusiasm for education and research and demonstrate a strong commitment to industry-university collaboration.

3) The candidate should have outstanding research achievements in fields of data science, educational technologies, intelligent informatics, software engineering, statistical science, data engineering, computer science, information security, communication engineering, or in interdisciplinary fields that apply knowledge from these disciplines.

4) The candidate should have sufficient communication skills in English and Japanese.

### **9. Start of employment:**

An appointee is expected to start on July 1<sup>st</sup>, 2026 or the earliest possible date thereafter.
