We strongly request that all incoming students and their parents fully understand the intent of this policy and refrain from commuting to campus by car or motorcycle, in order to prevent traffic accidents and maintain a safe and conducive environment for education and research on campus.

Please note **that admitted students will not be permitted to commute to school by car unless they have special circumstances**. In the case of special circumstances, such as a physical disability or living in an area where it is very difficult to commute by bus, please contact the relevant desk at your respective graduate school during the designated application period, which will be announced via a notice after admission.

Note 1: Under the Road Traffic Act, all bicycle riders are expected to wear helmets. When riding a bicycle, we strongly recommend that you wear a helmet.
